Transcription of the "Eurovision Debate" in the Run-Up to the European Parliament Election 2014

About the Debate

On May 15, 2013 the first TV-debate between all leading candidates for the Presidency of European Commission, the "Eurovision Debate" took place. Participating candidates were Jean-Claude Juncker (EPP), Martin Schulz (PES), Guy Verhofstadt (ALDE), Ska Keller (European Greens) and Alexis Tsipras (PEL). Starting on 21:00 (CET) in the European Parliament, candidates had to answer the questions of presenter Monica Maggioni (TV-channel RAI, Italy) and her colleague Conor McNally (TV-channel RTÉ, Ireland). 49 TV stations, 39 websites and 10 radio channels provided live coverage of the debate across whole Europe. Voters offered their comments via social media (Hashtag #TellEUROPE).

The "Eurovision Debate" was only one of – in total – seven debates, that were broadcasted across whole Europe (see figure 1 and figure 2). For more information see http://www.eurovisiondebate.tv/#.

Remarks

In this working paper we present the exact wording of the "Eurovision Debate". Statements of candidates and hosts are divided into 5-second-units. Furthermore, we include some paralinquistic characteristics as follows:¹

- (is) incomprehensible statement
- ^ paraverbal insertion (äh, öh, ömm etc.)
- short break
- -- long break
- [simultaneous speaking
- "..." verifiable quote
- ,... analogous quote

¹ Following a systematic of paraverbal elements developed by Josef Klein (1990): *Elefantenrunden ,Drei Tage vor der Wahl*: *Die ARD-ZDF-Gemeinschaftssendung 1972-1987*, Baden-Baden, Teil II: Texte, page I.

						Before we start, here
						are
00:01:15						the rules for tonight.
						The candidates will

00:01:25						of rebutal. We ask the

00:01:35						The order in which the

00:02:25			to a colleague of us,

			Claude Junker			
00:02:30			and myself were his

00:02:35			Council. And I can tell			
			you, he was a great

00:02:40			He was also the ^^			
			Vice-president of the			
			Convention together			
00:02:45			with Valérie Giscard

00:03:50			We are with our

00:04:40						
00:04:45						We go to the other

00:04:50						
00:04:55					I am Alexis Tsipras.

	We need this Free

00:06:45	I'd like us to establish

00:10:25						economy is a major

						Yes. And this is
						exactly why in our

						from econom,
						economy. So
00:10:35						again, the first one to

						question is:
00:10:40						More than five million

00:10:45						you as Commission
						President give them
						back their future?
00:10:50				I think the questio

				is exactly that what	at	
				we need to put		
00:10:55				on the top of the		
				agenda. And I as	а	
				Commission		
				President would		
				absolutely do so.		

Time-						
code	Juncker	Schulz	Verhofstadt	Keller	Tsipras	Presenters
00:10:55				Because we		
00:11:00				cannot have a

				where all of a		
				generation is being		
				lost and where		
00:11:05				people loof their^

00:11:10				So youth

				How do we how are

00:11:15				I think we can only

			Well, what I all			
00:15:15			what I have heard

00:15:30			And a new approach,

00:20:20						
00:20:25	Well this is an easy

	at the same time.					
	Everyone is speaking					
	as if they were

	time today. The					
	Liberals, the Socialists					
	and the Christian

	managed the crisis.					
	Obviously we need to

	Socialists and the					
	Liberals and the					
	Christian Democrats					
00:20:45	were working together					
	on it. Of course					

Time-						
code	Juncker	Schulz	Verhofstadt	Keller	Tsipras	Presenters
00:20:45	investment is					
	necessary. Why does					
	Europe not invest					
	enough?					
00:20:50	Well, because our					
	budgets don't allow us					
	to do that. And					
	budgets don't allow us					
	to do that because we					
	have					
00:20:55	built up debt and					
	deficits. Those who do					
	that					
00:21:00	need - need to do ^					
00:21:05	are ^ preventing

00:22:00			We have already

			that's the reason why	•		
			they have

00.24.00						And let me tell you
						that you are
00:24:05						exactly in the middle
00.24.03						of our next question.
00:24:10						So you are going to
00.24.10						have the chance to
						say on this because in
00.04.45						the social media
00:24:15						these days there is a
						lot about this. But
						before we switch to
						the next question
00:24:20						Alexis Tsipras
00:24:25						Now someone is
						telling me something
						that we should
						definitely (is)
00:24:30						
					What subject? Have	
					you asked me a	
					question yet?	
00:24:35					-	You have react to the
						same question all
						over to now, I think
						so. I think
00:24:40						we go we move to the
						next question and

Time-

00:24:40						than we decide what
						to do
00:24:45						Yeah,
					Well, I also have a	
					joker. Cause there's	
					plenty more to say not	
					only on this? subject	
00:24:50						^ Let's let me tell you
						something. These
						days we are a lot in
						the social networks
						and what we've just
						seen.
00:24:55						is that banks and
						these kind of things
						are in the middle of
						the discussions in
						social networks.
00:25:00						So a lot of people
						blame banks for the
						crisis. In your Europe
						would
00:25:05						bank be more tightly
						regulated? So, it was
						again you
00:25:10				Yes, a very clea	r yes	
				from my side. W		
				need to regulate)	

Time-						
code	Juncker	Schulz	Verhofstadt	Keller	Tsipras	Presenters
00:25:10				banks more clearly.		
00:25:15				And what you have		
				just said about the		
				banking-union,		
				success is like		
00:25:20				That, banks have to		
				stock up more money		
				in order to rescue		
				themselves. That's a		
				green success		
00:25:25				And we also say that		
				we need to have		
				financial reg market		
				regulation for example		
00:25:30				in separating retail		
				from investment		
				banks. So it is not the		
				money, you know,		
00:25:35				of the ^ it's not the		
				earnings of the		
				grandmother or the		
				grandfather who		
00:25:40				get lost in global		
				speculation. That, I		
				think, is very		
				important. We need to		
				regulate financial		
00:25:45				markets. Much closer		

Time-						
code	Juncker	Schulz	Verhofstadt	Keller	Tsipras	Presenters
00:25:45				by the way it's not one		
				billion Euros that we		
				had lost every year ^		
				through		
00:25:50				finan ^ through tax		
				evasion. It's one		
				trillion Euros every		
				year. Approximately		
				eight percent of		
00:25:55				the European wealth.		
				There, I really think,		
				we have to do		
				something. We cannot		
				tell people		
00:26:00				we're gonna cut their		
				salary when we are		
				not stopping tax		
				evasion and if we are		
				not cutting		
00:26:05				the bonuses of		
				bankers like we have		
				proposed and we		
				have succeeded to do		
				so as Greens in the		
00:26:10				European Parliament.		
						Alexis Tsipras about
						the banks. It's yours.

00:51:10	for the European

						Thank you very much.
00:51:45						- Let me, let me move

00:51:50						Because today in Italy
						^ we were seeing very

00:51:55						what happend off

						So, let me just ask

00:52:00						candidate, if you
						consider the

						should ^
00:52:05						should address to
						member states or to
						the European Union.
						Guy Verhofstadt.
00:52:10			Yeah, not member	-

			member states are)		
			not responsible. W	/e ^		
			need a			

Time-						
code	Juncker	Schulz	Verhofstadt	Keller	Tsipras	Presenters
00:52:15			common immigration			
			policy but not what we			
			have now. We need a			
			legal economic			
00:52:20			migration policy the			
			fastest in the Union.			
			Australia has that,			
00:52:25			Canada has that,			
			United States of			
			America has that. And			
			we don't			
00:52:30			have. And the			
			consequence of this is	;		
			that we have more			
			and more illegal			
			migration because we			
			don't have a			
00:52:35			legal migration policy.			
			And the second			
			consequence of it is			
			that we have more			
			and			
00:52:40			more human

00:52:45			So we need a

			They are all going to

		we need protection for

	not leave it in the

00:57:35	But it is in the hand of				
	the member states.				
	And therefore, my				
	Commission will put				
	the member states				
00:57:40	to their responsibility. I				
	make such

						Religious symbols.
00:59:20			That's simple.			
				Thank you. Well, you	J	
				already took the first		
				two seconds of		
00:59:25				my time. I think,		
				religious symbols tha	at	
				is not something that	ţ	
				we necessarily		
00:59:30				have to regulate at th	ne	
				European level. I find	k	
				it very important that		
				the personal freedom		
				of people		

Time-							
code	Juncker	Schulz	Verhofstadt	Keller	Tsipras	Preser	nters
00:59:35				is being safeguarded			
				and that in public

00:59:40				While still allowing for			
				instance people who			
				choose to wear

				again, it is something			
				that we not we don't			
				have to regulate at the			
				European level			
00:59:50				where it's very much			
				also depending on the			
				local ^ context as well.			
00:59:55				But I think it's very			
				important that the			
				right to express one's			
				religious freedom is			
				upheld			
01:00:00				and supported, of			
				course as long as it			
				doesn't infringe on			
				other people's rights.			
01:00:05						Guy	Verhofstadt,
						what's	your vision on

Time-						
code	Juncker	Schulz	Verhofstadt	Keller	Tsipras	Presenters
01:00:05						this?
			Well, I'm a

			anyway. So I think			
			there are a number of			
			values ^			
01:00:15			Ska, where are so			
			important, that they			
			not fall under the			
			subsidiarity.			
01:00:20			I'm sorry, - I'm sorry,			
			when it concerns the			
			freedom of the press,			
			the freedom of

			I come from a coun ^^

			ethical issues. I come			
			from Spain now, so			
			that means something			

Time-

01:00:35			there. Ethics for the			
			moment,			
01:00:40			the whole discussion

			So I think, we need

01:00:50			the fastest^ as

01:02:20						What's your position

01:02:25					Thank you very much.	
01:02:30					Well, I think anyone in	
					any of the member	
					states have to respect	
					the	
01:02:35					provisions of the	
					constitution. Of	
					course, each member	
					state has got to	
					defend the	
01:02:40					^ the ^ rights of all

01:02:45					There are many	
					people, who live in the	
					European Union and	
					they must be able to	
					believe in	
01:02:50					the god of their choice	
					 and act accordingly. 	
					I think that	
01:02:55					it's a bit anachronistic	
					and it's a backward

01:03:00					^ trend we've seen of	

Time-

					anachronistic and	
01:03:10					a throwback – for	us
					to see in Spain	for

					Because that takes	sus

01:04:00	spaces are neutral				
	and have to be

01:11:25				It's the lobbyists who		
				spent millions in

				it's amazing when

01:12:00						Guy Verhofstadt,
			[Well, ^			what's your point?
			you cannot forbid that			
			there are			
01:12:05			lobbyists. The			
			Problem is that from			
			time to time like we			
			have seen the case ^			
			the			
01:12:10			last years in this			
			commission there is			
			corruption ^coming			
			from that. That is is			
			the problem.			
01:12:15			And that we have ^			
			certainly to fight			
			against. And to make			
			new rules			
01:12:20			and we have made			
			new rules in the last			
			parliament to			

Time-						
code	Juncker	Schulz	Verhofstadt	Keller	Tsipras	Presenters
01:12:20			strengthen in fact the			
			fight against			
			corruption			
01:12:25			against lobbyist. And			
			mainly it's about who			
			is representing you.			
			What is the the

			representing you and			
			what are the ethics o	f		
			^ these politicians wh	0		
			are coming to this			
01:12:35			parliament. But next			
			to the lobbyism and to)		
			corruption I think the			
			main problem			
01:12:40			for the moment in the			
			commission, Ska			
			Keller was talking			
			about the			
			commission, is a lack			
			of leadership and			
01:12:45			independence from			
			nation-states today,			
			mainly from Paris and	d

01:12:50			The actual leadership)

01:12:50			always first phoning to)		
			Paris and Berlin,

			Berlin and Paris			
			before acting. And			
			that is for me,			
01:13:00			that is for me the mair	1		
			problem today. That			
			we have again a			
			leadership and			
01:13:05			not longer a secretary	,

						Time, thank you. So

01:13:20						
	Clearly, we need a

01:13:25	for lobby-activities.					
	Obviously, we need to)				
	fight ^					

Time-

01:13:40	Thus for all members					
	and commissioners to					
	publish the list of their					
01:13:45	contacts and their					
	meetings so citizens					
	know who they have					
	been dealing with, ^					
01:13:50	is the way and					
	citizens should go and					
	vote					
01:13:55	so it becomes a					
	democracy and they					
	actually go and vote					
01:14:00	between the 22. and					
	the 25. to avoid the					
	risk that the lobbyists					
01:14:05	influence ^ the less

01:14:20					Corruption is ^

			That are the rules of
